<p>Motivation to become Governing Board member (1300 characters with spaces)</p>	<p>I am writing to express my strong motivation and enthusiasm to become a member of the ETIP Hydropower Governing Board. I believe that my passion for renewable energy, my expertise in hydropower technologies (see previous experience), and my commitment to shaping a sustainable energy future align perfectly with the goals and values of ETIP Hydropower.</p> <p>Hydropower is often overlooked as an enabler of intermittent renewables, despite its significant potential to enhance the integration of intermittent energy sources like wind and solar.</p> <p>Since ETIPs play a crucial role in driving innovation and ensuring the sustainable development and competitiveness and Europe's technological leadership of their respective technology areas, the establishment of a specific ETIP Hydropower was long overdue.</p> <p>Our ETIP has a great potential to foster collaboration, advocate for supportive policies, and promote research and innovation to advance our industry in Europe and abroad.</p> <p>I look forward to the possibility of serving on the Governing Board and working together to make a positive impact on the future of hydropower in Europe.</p>
